## CRUISER HURRIES TO PORT WITH SICK MEN MOB JUSTICE IN THE PARIS STREETS

### Police on Trail of Lost Jewels

Valued at \$2,500 and Belong to  
Officer's Wife—Arrests  
Expected.

On November 13, 1908, Mrs. Oscar W. Koester, wife of an Army engineer, who was at the time settled in Manila, passed through Honolulu on a transport. While driving around the city she was unfortunate enough to lose a handbag which contained two smaller receptacles for coin and jewelry.

The total value of the contents of the bag was close on to \$2,500, and from the day the loss occurred until a few days ago, no trace of the missing bag has ever been found.

Lately the matter has been revived and there is every hope of at least some of the stolen jewelry being recovered. Detective Olson, of Chief McDuffie's staff, became aware that a man nicknamed "Monkey" who is at present serving a sentence of three years in Oahu prison, knew something

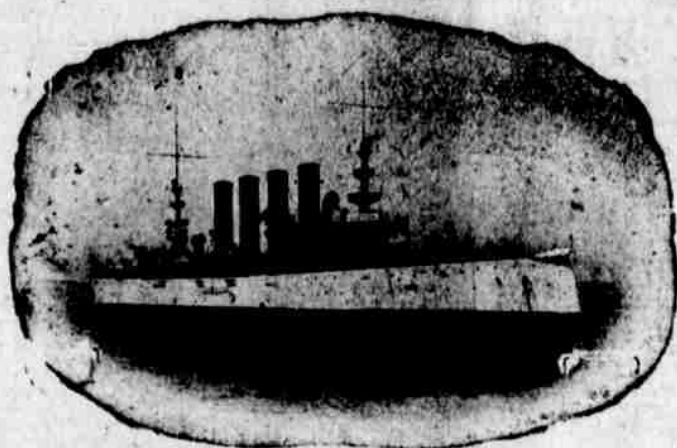

of the finding of the handbag. McDuffie, who although not on the police force at the time of the loss of the bag, had been informed of the matter and had, privately, looked into the case, and had about summed it up correctly.

The Chief went to the prison and there saw "Monkey" who confessed that a friend of his had picked up a handbag over a year ago, and that inside of it was another smaller bag or purse.

"Monkey" described the contents of the bag to a nicety, and there can be no doubt he saw the lost article. He asserts that the other man and he took the bag to a house on Punchbowl and there examined the contents. Two bills, one for ten dollars and another for twenty dollars, were promptly taken out and spent down town.

### Washington In And Quarantined

CRUISER WASHINGTON OF THE PACIFIC FLEET.  
Serious Case of Varioloid Brings  
Cruiser to Port Ahead  
of Fleet.

The United States armored Cruiser Washington lies at the quarantine wharf, flying the yellow flag of quarantine, and it is more than likely that the vessel, her officers and men may be isolated by the Federal authorities pending an investigation of two cases of sickness which manifested itself shortly after the Washington sailed from Yokohama.

Two cases of what is believed by the cruiser's surgeon as variola or a mild form of smallpox were discovered among the enlisted men of the Washington. That the nature of the illness was considered serious is plainly demonstrated by the Washington leaving the remainder of the "Big Eight," which are making a leisurely voyage to Honolulu, the

### Mob Rule In Paris Streets

PARIS, Jan. 31.—Swift justice for the looters who are swarming the devastated districts of Paris was visited by the enraged mobs in the streets of the city today.

In the midst of the distress of the past week the human ghoul has been being their trade almost unopposed on account of the citizens and officials being engaged in saving life and property.

As order is slowly being brought out of chaos, attention has been given the thieves, with the result that many were captured, but the police were unable to cope with the excited populace.

Looters caught red-handed were taken from the police by the street mobs. Some of them were shot and their bodies exposed, as examples, while others were carried to the nearest lamp-posts and hanged.

### Siberia Brings War Material

Million Rounds of Ammunition  
Is In Cargo On Way To  
Philippines

One million rounds of small ammunition for the purpose of quelling any possible insurrection or disturbance in the Philippines lies side by side with merchandise essential for the pursuit of peace and happiness, the whole making up a total of over two thousand tons of general cargo which will be discharged from the Pacific Mail liner Siberia upon the arrival of that vessel at the Philippines the middle part of next month.

The Siberia was an early arrival on the port this morning. The vessel was promptly handled by the quarantine, immigration and customs officials, and she drew alongside the new Alaska-street wharf about nine o'clock.

The Siberia is not only well freighted, but she brought down a total of 489 passengers from San Francisco. Of this number, ninety-six cabin and twenty-nine second-class and one Asiatic passenger left the vessel at Honolulu.

That the tourist season is on in earnest was borne out by the large number of strangers who are included in the list of arrivals by the liner. Several commercial travelers are in the party. A score of through

passengers also arranged for a stop-over at Honolulu.

"We had a fine trip down," declared Purser Hyatt this morning. "The weather left little to be desired. The Honolulu delegation assisted in making the voyage a most enjoyable one."

But few passengers will join the Siberia at this port for the Orient. The vessel is scheduled by H. Hackfeld & Co. to call for Japan ports, Manila and Hongkong at 5 o'clock. The through list includes eighty-eight cabin, ten second-class, thirty-two Japanese and 228 Chinese.

The greater bulk of the freight will be left at Japan and the Philippines. To Japanese ports will be barged nearly five thousand bales of cotton for the large spinning mills of Osaka. For the Philippines there are several thousand tons of supplies, as well as ammunition.

A mainland mail amounting to 270 sacks was received by the local postal authorities.

The predicted shake-up which was believed would take place on the Siberia following the wholesale cleaning out of officers on the sister ship, Korea, settled down to but one

### Jacob Coerper Brings Suit For Divorce

Makes Allegations Against Wife In  
Action Begun In Circuit  
Court

A divorce action has been instituted in the Circuit Court by Jacob Coerper against his wife, Laura Coerper, in which he asks an absolute divorce and the custody of a minor child, Herbert P. Coerper.

The complaint for divorce states that the couple were married in 1889 and have not lived together for the past two years, the complaint containing the allegation that the wife has been unfaithful to her marital

vows, the charge of adultery being incorporated in the complaint.

No names are mentioned in the complaint, and the only allegation contained in the complaint is that of adultery. It is stated that Mrs. Coerper has committed numerous acts that constitute sufficient grounds for divorce, and for the court to award the complainant the custody of the child of the union.

### DE BOLT NOW ASSOCIATE JUSTICE

Sworn In Before Large  
Gathering of  
Lawyers

Associate Justice De Bolt of the Territorial Supreme Court was sworn into office this morning, the oath being administered by Chief Justice Hartwell before a gathering of members of the bar and many citizens, and a number of business men who happened to be in the Judiciary building at the time.

Attorney-General Hemenway, whose duty it would be to extend the congratulations of the bar to Justice De Bolt upon his accession to a place on the bench of the Supreme Court, was not present, and after a rather embarrassing wait that followed the administering of the oath, W. A. Kinney, president of the Bar Association, said a few words expressing the pleasure the members of the bar felt in seeing De Bolt's years of service on the Circuit bench rewarded, and Lorin Andrews concluded the speaking by expressing similar sentiments.

During 1909 forest fires caused a million-dollar loss in California.

### She Is Floated

TANGIER, Jan. 31.—The French cruiser Chateau-Renault that ran aground yesterday near Azarilla was floated today.

### WALDRON TO WAIT ON LIQUOR MATTERS

Won't Call Special Meeting  
Till He Confers With  
Directors

Fred L. Waldron, president of the Merchants' Association, will shortly take up the matter of government by commission and the liquor traffic as brought in recent agitation, with the directors of his association. Mr. Waldron wishes first to get the views of the directors before calling a special meeting.

"I do not contemplate taking immediate action in regard to this matter, until I have made myself familiar with the ideas and views of the directors of the Merchants' Association," said Mr. Waldron this morning.

In an interview with Secretary Emil A. Berndt this morning, Mr. Berndt said: "I believe in self-government and that the welfare of the country lies in self-government. It is human nature to fight against any forced restrictions. While self-inflicted they tend to produce just exactly what we are after. I am heart and soul against the low licensed saloons, because they are the direct source of crime and all unhappiness. I have every confidence in the local community working out its own salvation."

"Under the present liquor law, Honolulu is of as high moral tone, if not higher than any other community in the world. Since this law is the result of our own study of the question, we have little fear that we shall arrive at something still better if left to ourselves. It is admitted by all prohibitionists that our present liquor law is the best that they have ever had the opportunity to study. From this I take it that the liquor question is in excellent hands right here in Honolulu and the Territory in general."

"The liquor question can only be held in check through education, and not restriction. I would advise that the standards of our public schools be amended so that the liquor question

### Will Kill China Slave Trade

(Special Bulletin Cable.)  
PEKING, Jan. 31.—An edict has been issued by the Chinese Government approving of the plans formulated to abolish the white slave trade.

### Japan Will Issue Bonds

(Special Bulletin Cable.)  
TOKIO, Japan, Jan. 31.—The Imperial Japanese Government has approved the issue of \$50,000,000 of 4 per cent. bonds to replace the 5 per cent. bonds now outstanding.

### Koreans Kill Japanese

(Special Bulletin Cable.)  
TOKIO, Jan. 31.—It is reported here that a band of Korean insurgents has murdered twenty Japanese settlers.

throughout the Territory may be followed and students may learn what to expect with the abuse of liquor. This is the only place in the Union where the liquor question is not touched upon in public schools."

### Cleveland Will Pay Fine

SAN FRANCISCO, Jan. 31.—Passenger from the German steamship Cleveland landed at this port today, after a pleasant voyage from Honolulu. The customs officers will levy a nominal fine against the ship for its alleged violation of the navigation laws of the country in carrying passengers between two American ports. It is understood that this will be done in order that the case may be taken to the courts and the law tested.

### McCarthy Swings Axe

SAN FRANCISCO, Jan. 31.—Mayor McCarthy swung the political axe over the heads of the Board of Health, the Park Commissioners, the Fire Commissioners and the Civil Service Commissioners today in a most sensational manner.

The members of these commissions were summarily removed from office by the Mayor, and their successors were sworn into office at 2 o'clock this morning. This action was taken in order to prevent any interference with the new commissioners by injunction.

Everything had been framed up for the coup, the police being on hand and preventing by force the meeting of the old members of the Board of Health.

This radical step is a part of the fulfillment of the Mayor's promise to make an absolutely clean sweep of the old city government.

Lassen county, California, has begun a campaign against mosquitoes.

### Telephone Injunction Order Is Dismissed

Judge Robinson Rules On Motion—  
Affidavit By Mutual  
Treasurer

Judge Robinson this morning granted the motion to dismiss the order to show cause why an injunction should not be issued restraining the Mutual Telephone Company from proceeding with its work of laying its wires in conduits. The motion to dismiss the order to show cause was made without prejudice.

Two affidavits were presented in court in connection with the proceedings that resulted in the order dismissing the writ. J. R. Galt, attorney for the Mutual Telephone Company, stated that the laying of

### McLachlan Explains

WASHINGTON, D. C., Jan. 31.—Congressman McLachlan of California took the witness stand today before the Ballinger investigating committee, he being called promptly on account of the serious implication carried in the statement of Louis R. Glavis that he had been ordered by Secretary Ballinger not to investigate the land claims held by Mr. McLachlan in Alaska.

The Congressman stated that he, with Governor Gillett of California, Congressmen Knowland and McKinn

### Paynter Quits

WASHINGTON, D. C., Jan. 31.—Senator Paynter of Kentucky, one of the Democratic members of the Ballinger investigation committee, tendered his resignation today as a member of that committee.

### STATEHOOD SUBSTITUTE.

WASHINGTON, D. C., Jan. 31.—A new Statehood scheme was presented in the Senate today, when the committee reported a substitute for the bill passed by the House. This action will delay Statehood legislation considerably and possibly prevent definite action at this session.
